of Clarkston Dermatology

# Look Younger Fast

## Dramatic Results without a Facelift

*"It's hard for me to condense my comments about Dr. McFalda into a short testimonial because I've had incredibly positive experiences with her and her office. Dr. McFalda is my family's dermatologist and recently performed an ActiveFX treatment for me. Since then I have noticed my skin is tighter, even under my chin, and my skin tone and complexion is so much better I can wear less makeup. I feel younger and look younger."*

**Linda Garcia**

## ActiveFX

### The Procedure that's Changing Aesthetic Medicine

Up until very recently if you wanted to significantly reduce the signs of aging and sun damage, there were limited options that required surgery and major downtime. Now, with the Lumenis ActiveFX and DeepFX it's possible to obtain dewier, smoother and more luminous skin. Without surgery or major downtime and risk.

This new procedure combines the power of CO2 lasers with the accelerated healing properties of fractional technology to deliver unprecedented advantages.

### Rapidly noticeable effects with minimal downtime, completed in one 20-minute treatment performed in our office:

- Immediate contraction of wrinkles, like shrink wrapping loose skin
- Corrects pigmentation problems
- Minimizes pore size
- Promotion of collagen, which plumps skin from below and helps prevent wrinkles
- Treats eyelids and under the chin
- One treatment covers 80% of the skin vs. 20% like first generation fractional treatments

Fractional laser technology is one of the hottest trends in New York and California. That's because it can make you look naturally younger, without a pulled look. It works by literally repairing damaged skin without the disadvantages of traditional CO2 lasers, which have set the gold standard for resurfacing skin. *(continued on back)*

## ActiveFX *(continued from front)*

A topical numbing cream is used during the procedure in order to help keep you comfortable, no anesthesia is needed. Afterwards, your skin will look and feel like you've had a sunburn. During the healing process, skin will start to flake off within 2 days and the pinkness is typically gone within a week. Skin is noticeably tighter immediately and continues to improve for months. Most patients say they look about 5 - 10 years younger shortly after their treatment is completed.

## Expert Treatment & Advice

Having an aesthetic treatment is more than a financial investment. It's a decision that can profoundly impact the way you look and feel. Clarkston Dermatology is a place you can experience, and be confident you made the right choice. You'll be educated about the available options to solve your problem and know what to expect before, during and after your procedure.

The staff is highly experienced and specially trained for dermatology. Dr. McFalda is a Board Certified Dermatologist with a reputation for her caring attention to detail and providing excellent patient education. Her Nurse Practitioner, Carol Ecker is also highly regarded in the medical community. Carol earned her aesthetic training in California and is a sought after trainer for Lumenis. She advises physicians on the proper use and technique for the ActiveFX and DeepFX.

Due to the success of the practice, construction is underway so Clarkston Dermatology can move in the Spring of 2009 to a new and improved location at the new Clarkston Medical Building.

**Is the ActiveFX for You?**

| Yes                      | No                       |  |
|--------------------------|--------------------------|--|
| <input type="checkbox"/> | <input type="checkbox"/> | I dislike my wrinkles.                               |
| <input type="checkbox"/> | <input type="checkbox"/> | I have a lot of sun damage that bothers me.          |
| <input type="checkbox"/> | <input type="checkbox"/> | I would like to look younger without having surgery. |
| <input type="checkbox"/> | <input type="checkbox"/> | I would like to tighten my skin.                     |
| <input type="checkbox"/> | <input type="checkbox"/> | I would like to even out my skin pigmentation.       |

**If you answered "yes" to any of these questions, there's a good chance we can help. Find out what everyone's talking about. Please call 248.620.3376 for a consultation to see if the ActiveFX is right for you.**
